EPA General ConformityConcerns_CD edits 3-27-13 -Version5 (2) +sll.docx

Hi Tim and Chris

A few suggestions for you from me in the attached. I'm around all-day today if you want to discuss any of these.

Note: Per your request, I just looked at the sections on GC, didn't review the rest of the document.

Thanks for the chance to review

-Sara

Subject: NPL General Conformity comments

Hi Sara and Tim,

I've highlighted the general conformity comments and did a little editing. Please take a look at the highlighted text.

The remainder of the document is a work in progress and you are free to read through and if you have burning thoughts, please share, but know that I have not had time to rectify the un-highlighted comments.

Thank you so much Tim and Sara for all you effort on this and for dealing with yet another short turnaround, Sara.

As I mentioned on the phone, we're shooting to get these to Angelique in the NEPA program by COB Thursday this week so anything we can do to meet that is most appreciated.

The documents for review are located at: I:\30 Day Share\NPL_PDEIS, March 2016. Please let me know if you have any trouble accessing/finding the documentation which we are making comments on.

Feel free to work directly with Tim if you have any questions, and to the extent I can help out, please let me know!

Scott, FYI since you haven't seen where we are at with these to date. Rebecca, just keeping you in the loop – more to come on the other comments

Thanks,

Chris
